PAPER

Please find below and/or attached an Office communication concerning this application or proceeding.

The time period for reply, if any, is set in the attached communication.

The after-final amendment filed 12/28/07 was NOT ENTERED.

See Advisory Action mailed 03/28/08.

Any amendment after final (§1.116), or amendment filed with a request for continued examination (RCE) under §1.114, must include markings showing the changes relative to the last entered amendment.

Do not include markings to show changes relative to any unentered amendment.

Applicant should not assume that an after final amendment is entered because after final amendments are not entered as a matter of right (§1.116).

If applicant has not received an advisory action, applicant should check via PAIR, or call the examiner, to determine whether the after final amendment has been entered before filing another after final amendment or an amendment with an RCE.

If the advisory action has indicated that an after final amendment will be entered upon the filing of an appeal, applicant should assume that the after final amendment is not entered.

Any subsequent amendment must include markings showing the changes relative to the last entered amendment, and not the amendment which the advisory action indicated will be entered upon the filing of an appeal.

If applicant wishes to file an RCE after filing more than one after final amendment that has not been entered, applicant is encouraged to file an amendment with the RCE that includes:

Instructions not to enter the unentered after final amendments; and

All of the desired changes, including changes presented in the unentered after final amendments.

The markings must show changes relative to the last entered amendment.

A claim listing which includes any unentered claims presented using the status identifier "not entered" (e.g., claims 20-25 (not entered)).

Any new claims must be numbered consecutively beginning with the number next following the highest numbered claim previously presented (whether entered or not).

Applicants will be notified of any amendment paper that is not accepted because the changes do not comply with revised §1.121.

For after-final amendments,

Non-compliance will be indicated in an advisory action; and

The time period for reply continues to run from the mailing date of the final Office action.

See MPEP 714.03 (8th Ed. 1st Rev., Feb. 2003).

The proposed amendment filed 04/08/08 shows changes
relative to the unentered amendment filed 12/28/07. Applicant

Art Unit: 1796

should provide a complete copy of the proposed amendment(s) relative to the last entered amendment (claims filed 08/30/07).
